Case Study: Multiverse Art Defender (MAD)

MADWORLD.io NFT Technology – *Levelled up*

September 2021

THE MISSION

Mission - Multiverse Artist Defender

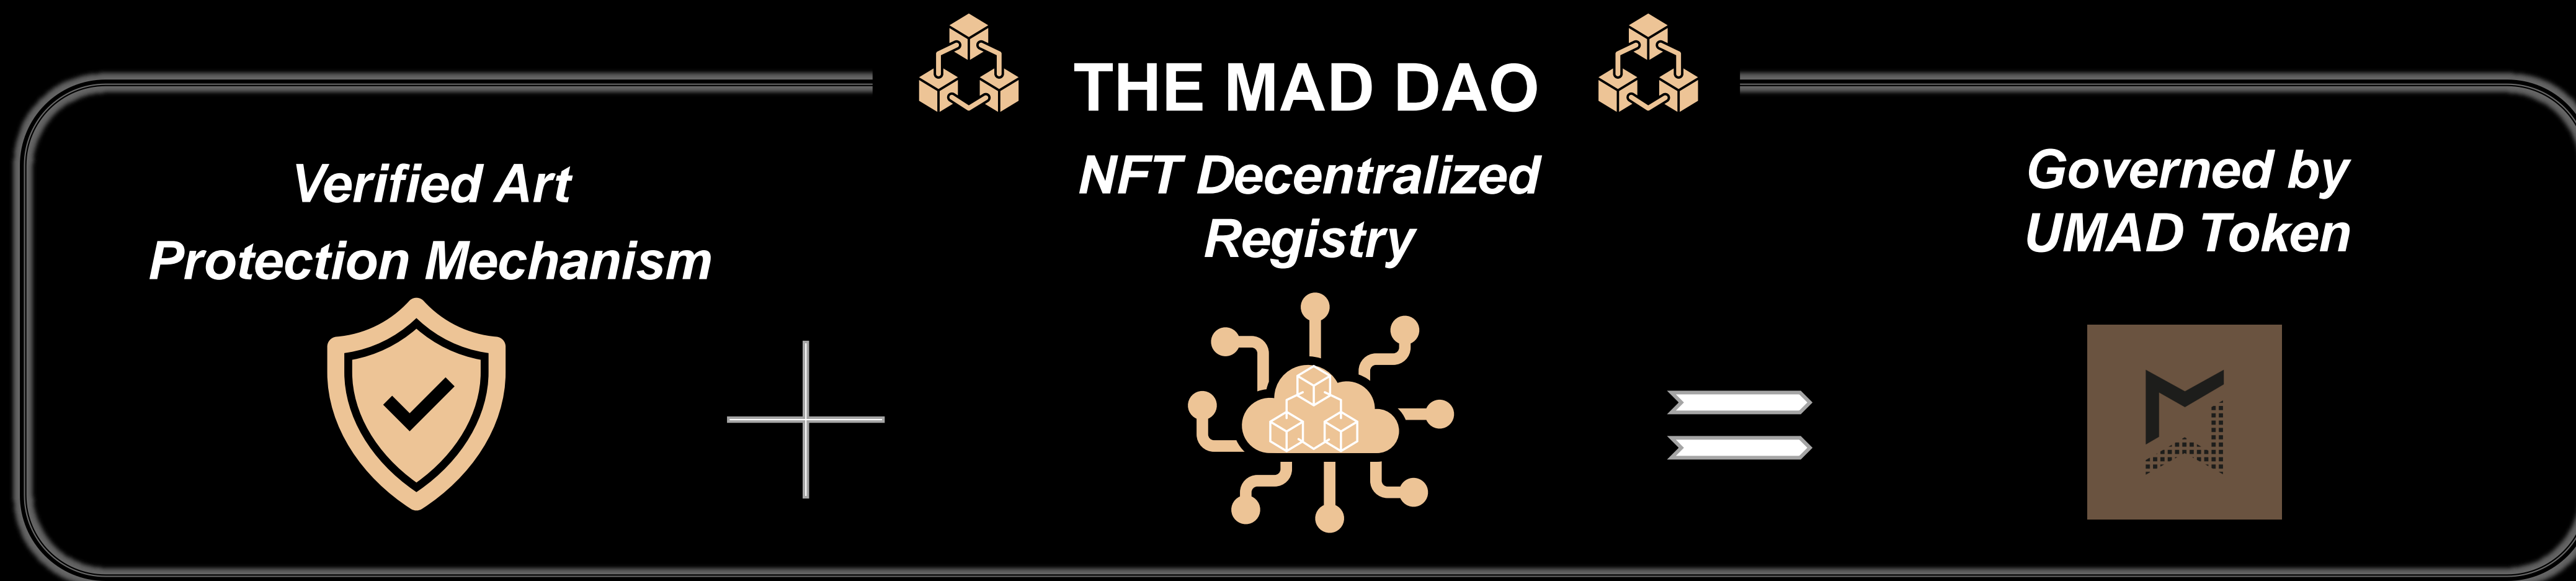

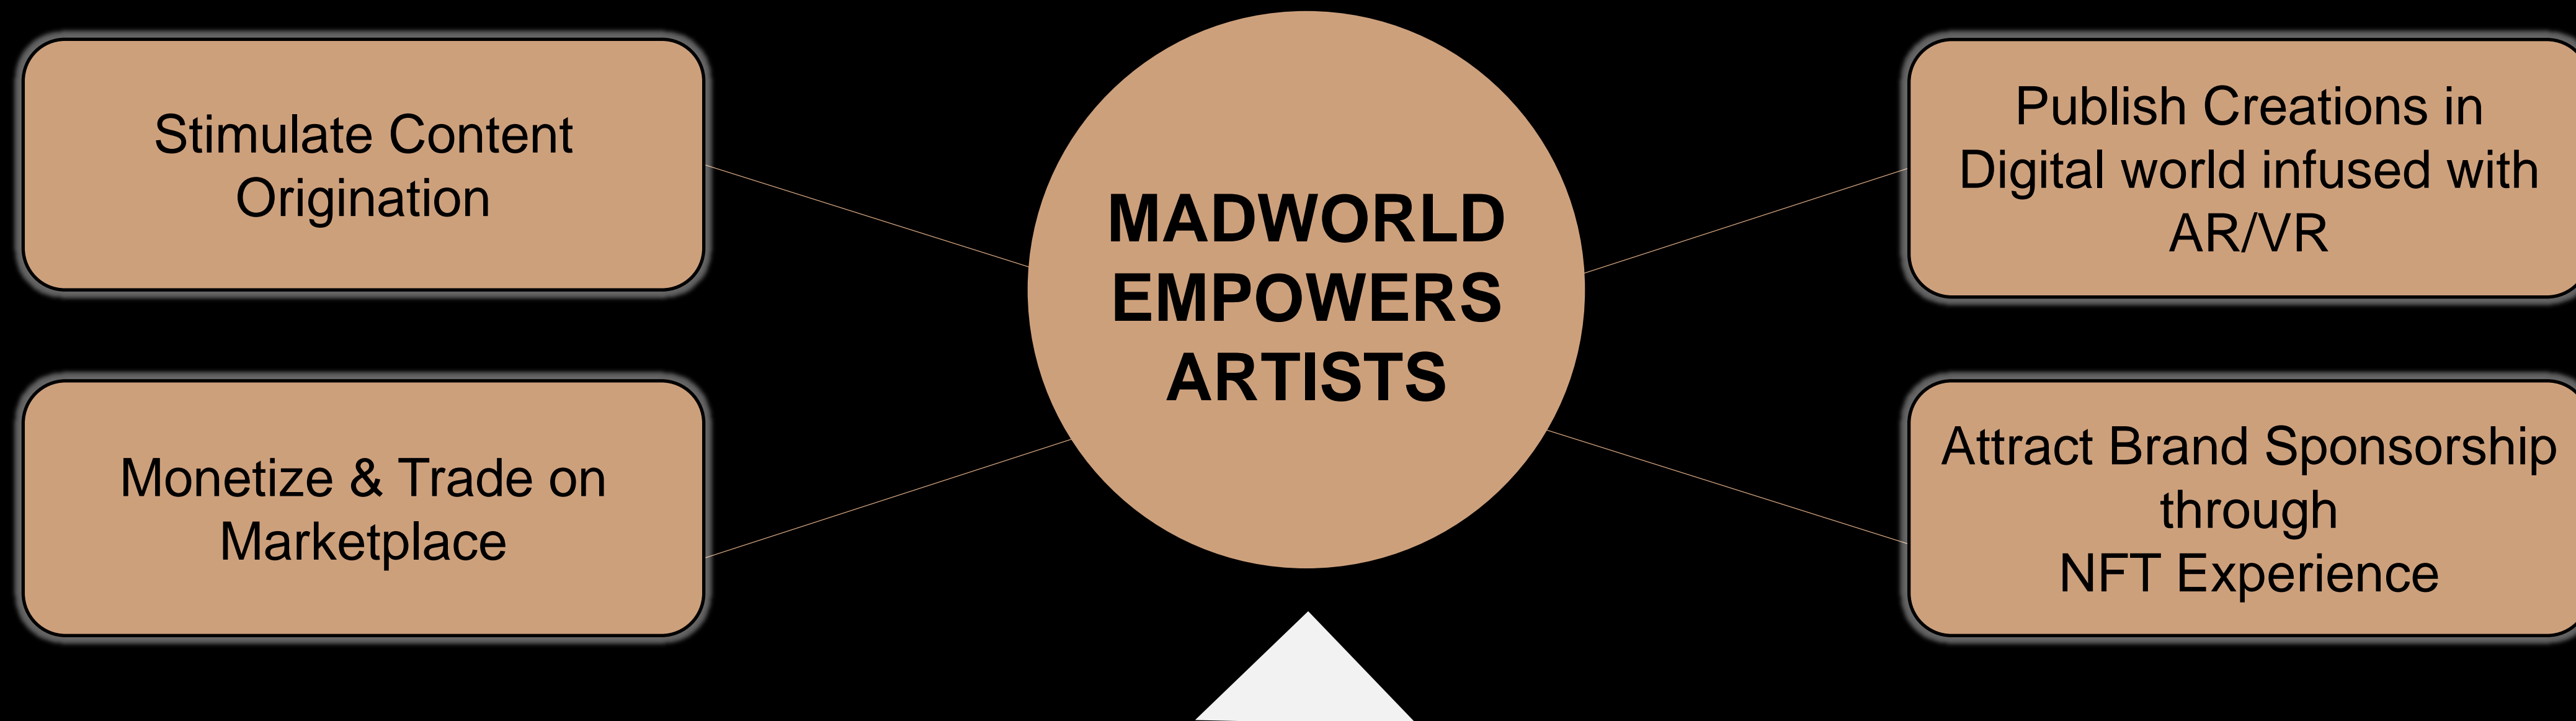

Creating Value for Artist and Creators Across all Dimensions

“A NFT platform for both real world and digital collectibles where the value and provenance of the artist and creator are protected on the multiverse.”

THE MAD DAO Empowers Artists & Creators

Preserve the Value of Artwork and Creations in a decentralized org across Physical & Virtual Worlds

THE MAD DAO Authenticates & Verifies

Verification and Authentication is regulated by trusted roles within a decentralized structure validated by trusted bodies

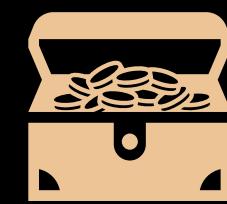

Reward and incentive structure is in place for successful submission of creation and artwork

All works are reviewed and voted by individual that owns the UMAD token

Votes are weighted according to total tokens staked

Votes are tallied to determine the approval of works

- ✓ Verification and Authentication occurs at Content Origination Stage
- ✓ UMAD governance token to empower Trusted Bodies and creators as validators
- ✓ Blockchain Technology for immutability and record of provenance

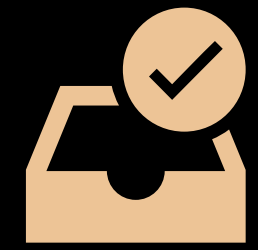

1

3

5

7

2

4

6

Curated Artists & Creators can submit their proposed artwork/creation
Note: Artist Verification and Authentication is already done at this stage

Voting rights can be delegated to Trusted entities and bodies who are token holders and voters are paid to participate

Voting results are kept confidential and secured to ensure fairness is achieved.

MADWORLD PLATFORM

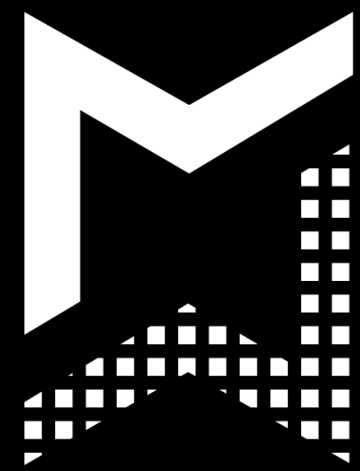

- ❖ REGISTRY & PROVENANCE
- ❖ NFT ASSET MANAGEMENT
- ❖ AUTHENTICATED ARTWORK WITH DAO VERIFICATION & VALIDATION

Physical Collectibles Paired with NFT

Preserve Artist and Creators Work Across Physical and Virtual worlds

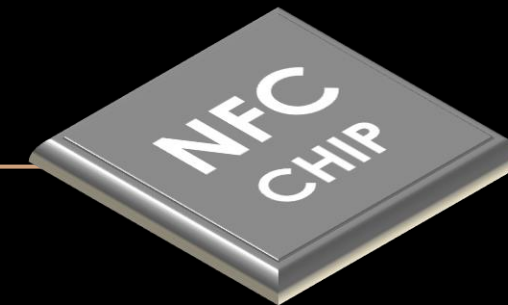

- ❖ Content Originated on the Madworld Platform

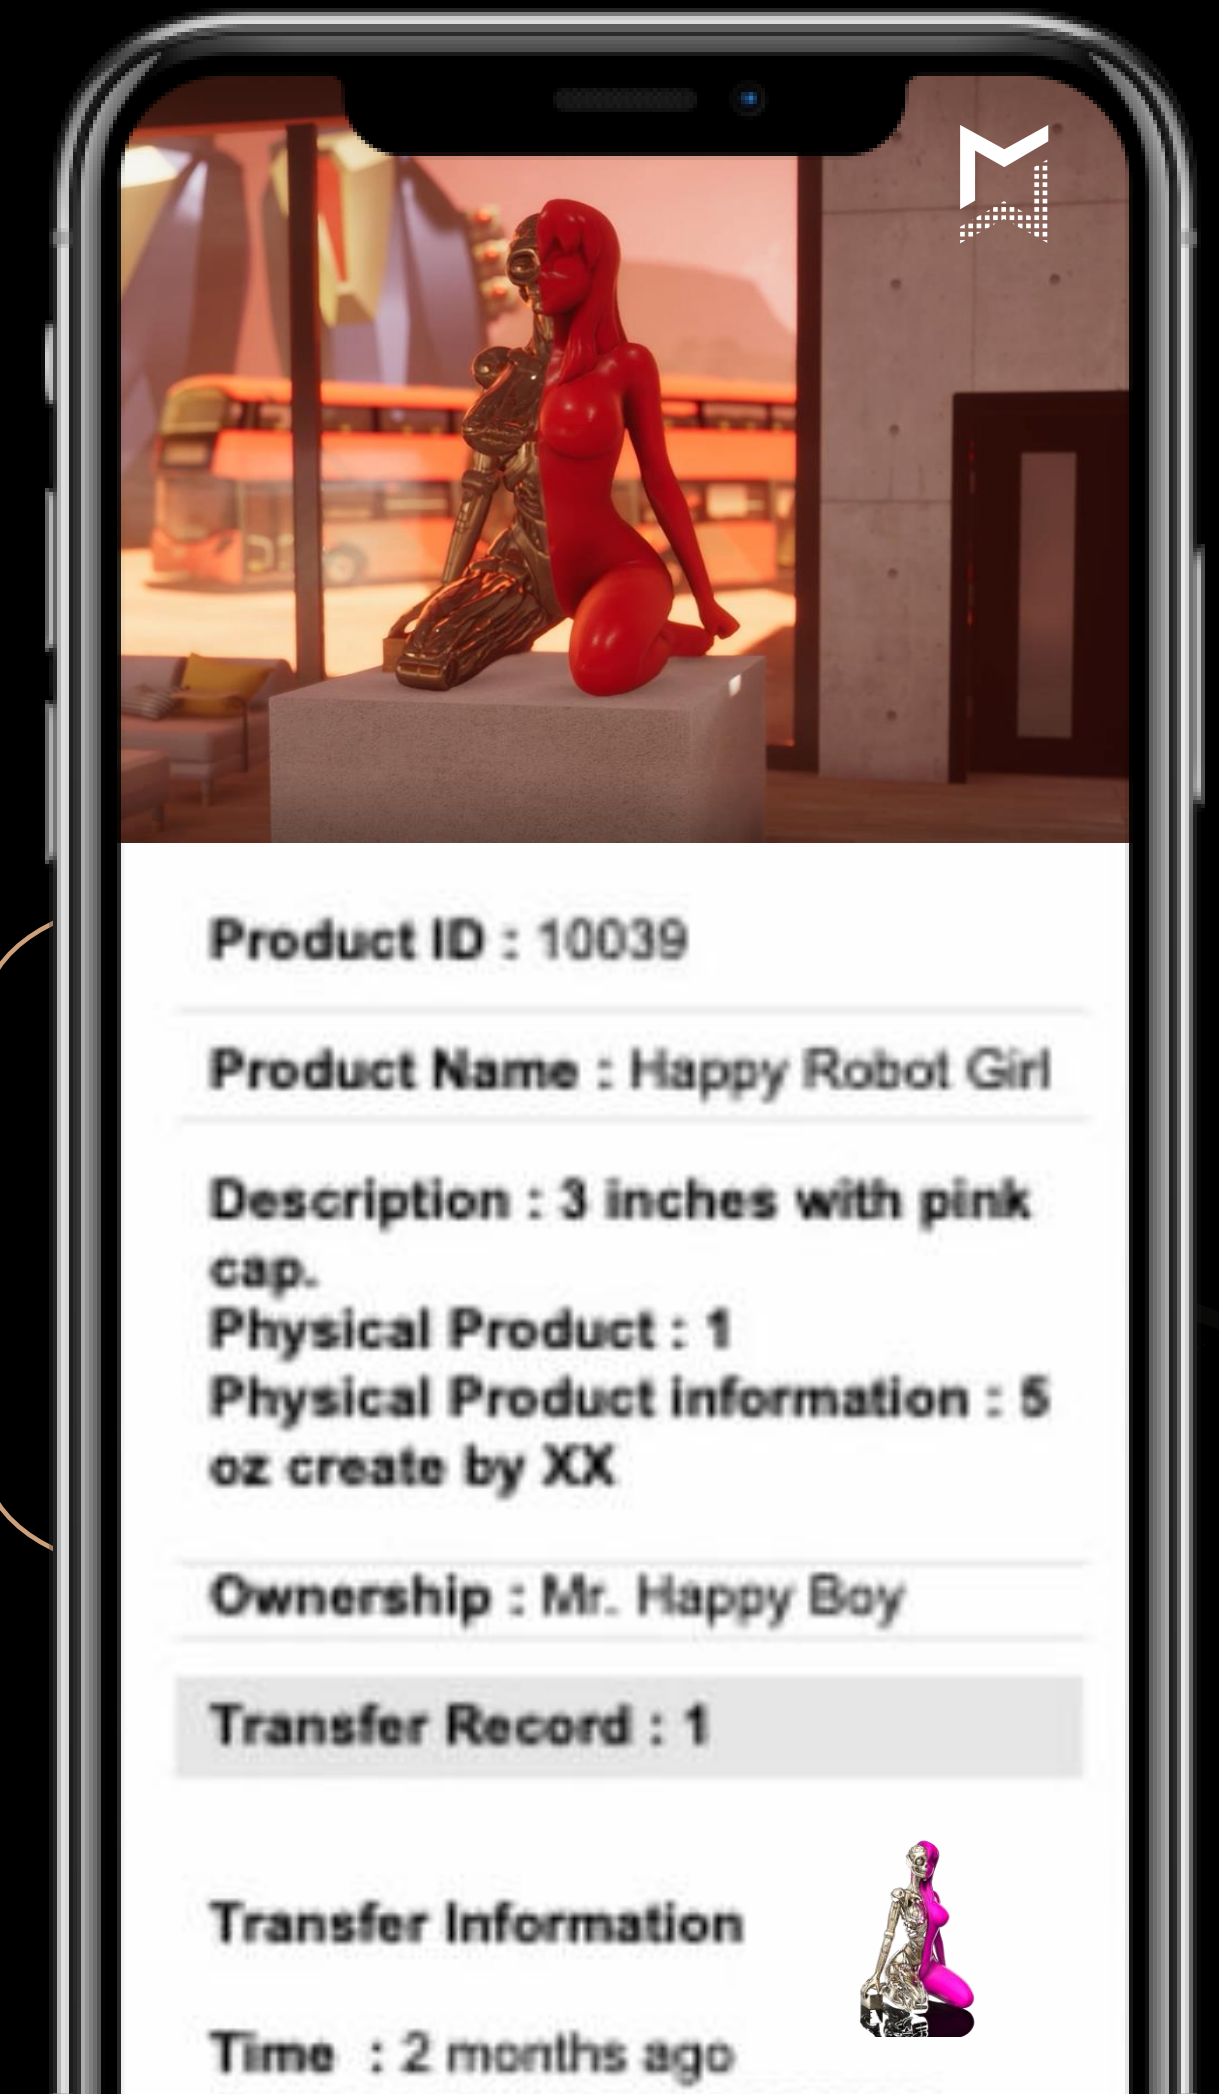

Collectors will be able to display products in both digital and physical worlds

Arts & Collectibles will exist both in a digital format and become part of a physical collection.

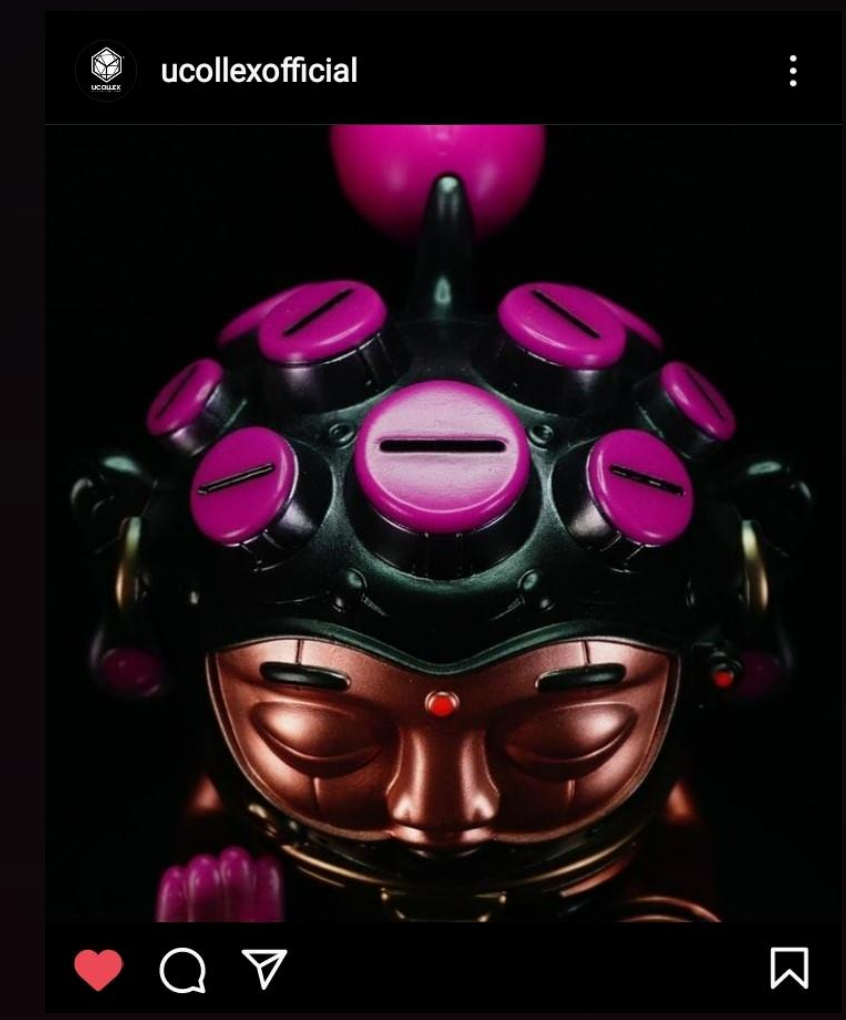

NFC technology applied to connect physical assets with digital smart contract

- ❖ Product authentication with detailed product information
- ❖ Digital asset ownership certificate generation based on NFT technology

Reinventing Content Origination

Unique Content Format through LIMITS Art Battles

Enhanced Consumer Experience

MADWORLD Provides Constant Innovation for the Evolution of Digital Assets

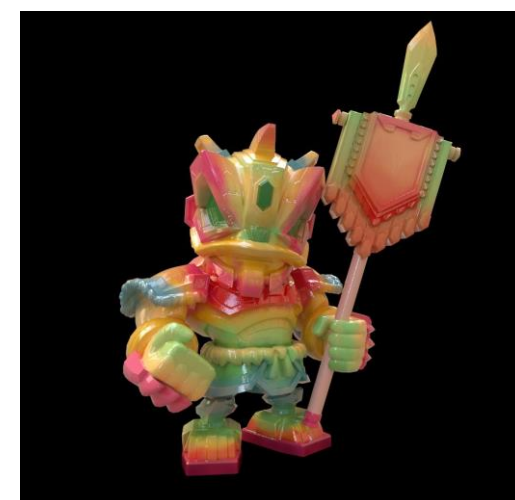

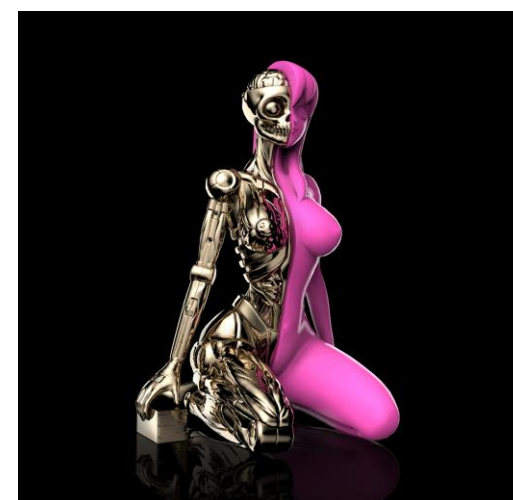

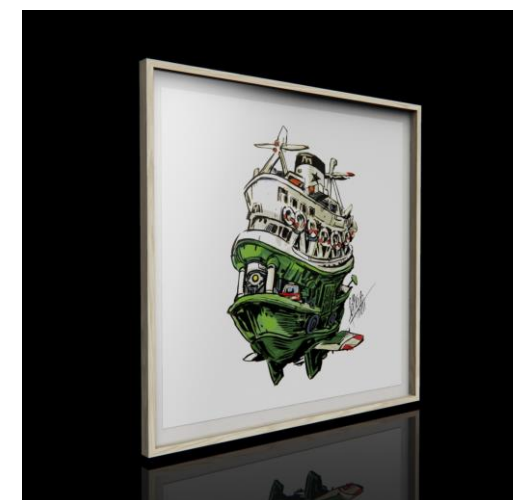

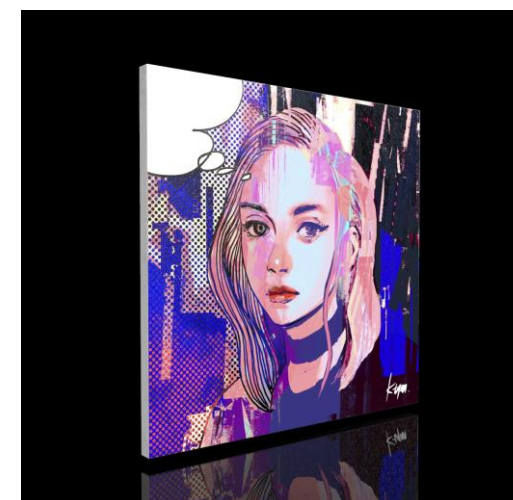

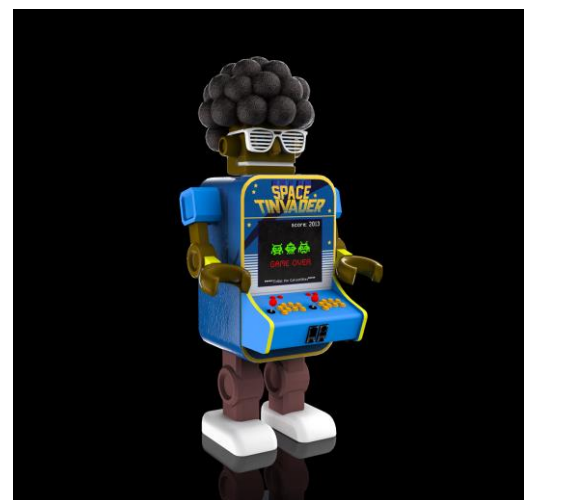

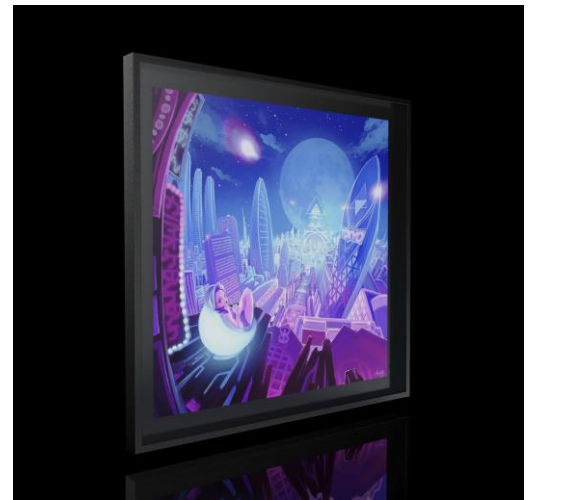

Interactive Platform Experience

- MAD is infusing the experience of augmented reality (AR) and virtual reality (VR) into the creation, minting, and the showcasing of NFT.
- Creators can create a gallery where they can invite friends and collectors to visit and see their collection of artwork. Collectors can also create and share the joy with others about their distinct collections with the AR & VR experience.

Collaborations with Brands

STAKE

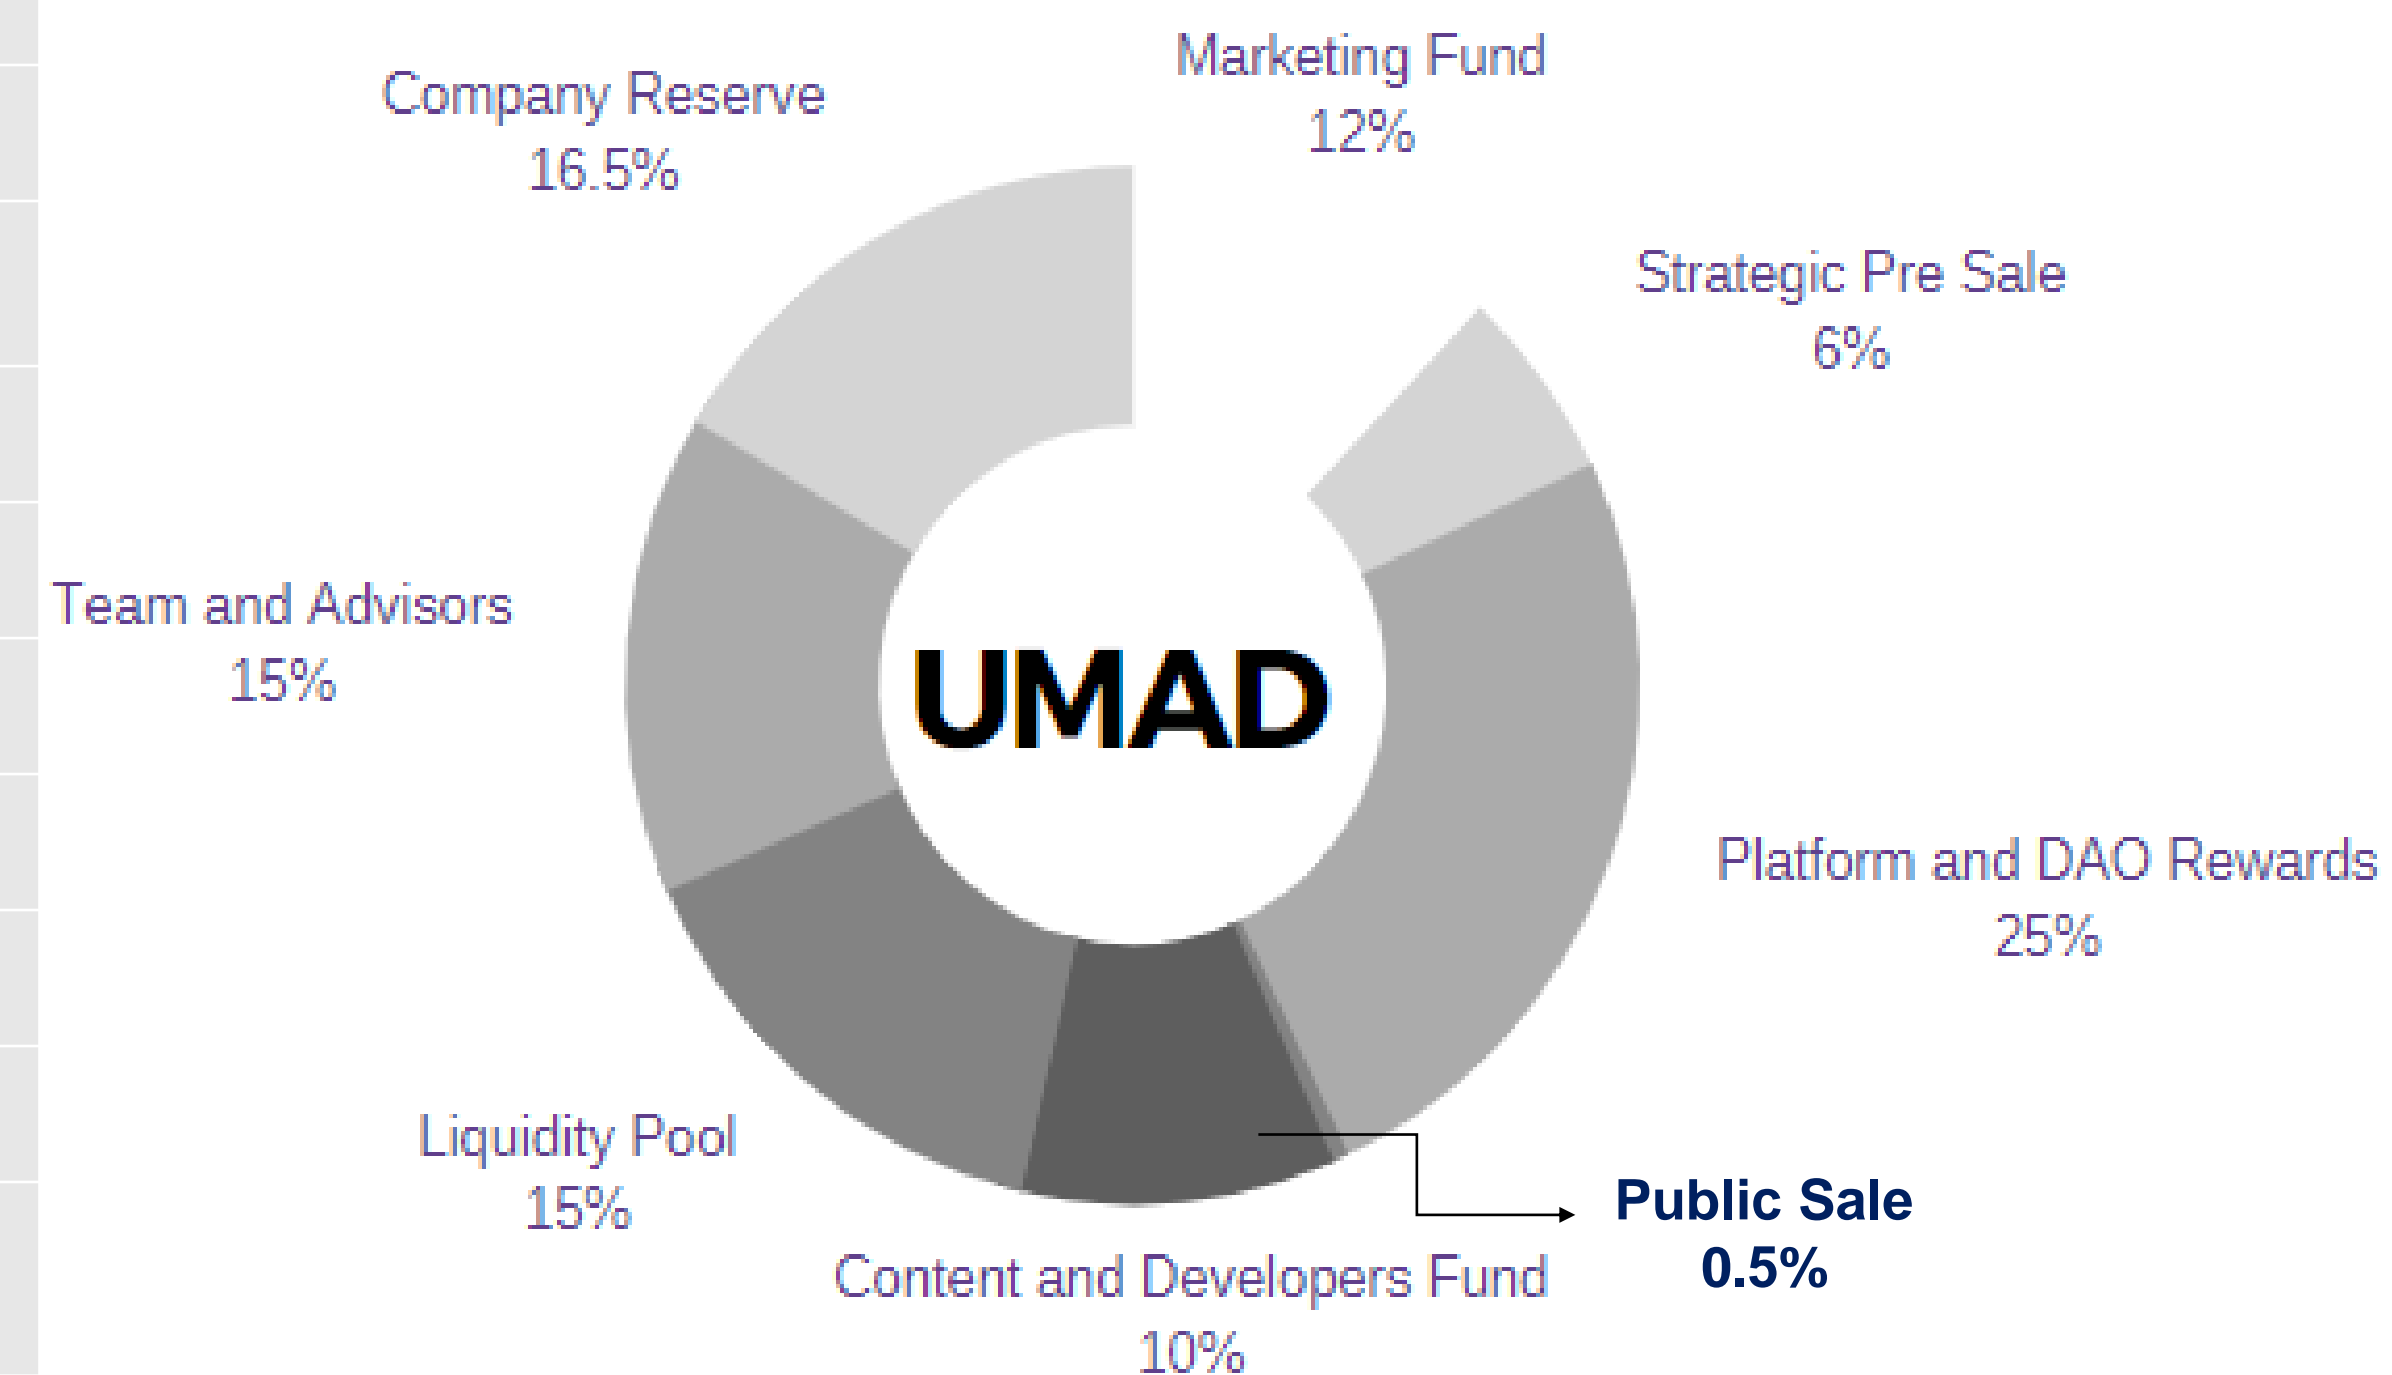

Expert from the community stake to earn reward and unique NFT.

Tokenomics

Use of Funds and MAD's Investment Strategy

Category	Allocation	Percentage
Platform and DAO Rewards	2,500,000,000	25%
Marketing Fund	1,200,000,000	12%
Content and Developers Fund	1,000,000,000	10%
Liquidity Pool	1,500,000,000	15%
Team and Advisors	1,500,000,000	15%
Company Reserve	1,650,000,000	16.5%
Public Sale	50,000,000	0.5%
Strategic Pre-Sale	600,000,000	6%
Total	10,000,000,000	100%

Key Takeaways:

- Strategic Pre-sale Token should be priced at a steep discount to encourage early -stage supporters
- Typically 35-80% discount to Token Generation Event (TGE) aka (Initial Digital Offer)
- Attract good strategic investor, do not just go for the money!
